

Errata

Erratum: Possible Advantages of a Robust Evaluation of Comparisons

Jörg Müller

Bureau International des Poids et Mesures,
F-92312 Sevres, France

[J. Res. Natl. Inst. Stand. Technol. Volume 105, Number 4, July-August 2000, p. 551]

On p. 554, the sixth line down in the right-hand column should be as follows:

If t is located between y_{-1} and y_1 : $Q = y_1 - y_{-1} = Q_0$.
